

CheckLight Appoints Doron Birger, former President & CEO of Elron, to its chairman of the board of directors

Tel Aviv, Israel - July 12, 2009 - CheckLight Ltd., a provider of innovative bioluminescence-based solutions for rapid water quality testing announced today that Mr. Doron Birger, is appointed as the chairman of the company's board of directors.

Mr. Birger, served for the last 7 years (2002 - 4/2009) as the president and CEO of Elron (Nasdaq/TASE:ELRN)- one of the leading high technologies groups in Israel, having 27 companies, focusing in the fields of Water, Medical Devices, Communications, Software, and Semiconductors.

"We are very excited that Mr. Birger is joining CheckLight's board of directors as an active chairman, said Ori Yogev, Chairman of Whitewater group, who is the major investor in CheckLight. "I am convinced that Mr. Birger's vast experience will significantly contribute to CheckLight's efforts to become a major player in the global market of water monitoring." "Mr. Birger will find in CheckLight a winning combination of unique technology, huge market potential and many challenges, at a point in time where its verified technology can be leveraged towards a significant market presence" added Yogev.

About CheckLight

Founded in 2001 by Dr. Nirit Ulitzur, CheckLight Ltd. is a private company, based in Israel. Since its foundation, CheckLight has engaged extensively in developing and marketing technologies for a variety of water quality testing applications.

In early 2008 Whitewater Technologies Group (www.w-water.com), a leading Israeli water technologies company, became a strategic investor in CheckLight.

CheckLight's products are being successfully used by China's Environmental Protection Ministry, leading water labs in Europe, the Israeli National Water company, and others around the globe.
