

CheckLight participates in “Addressing Water Challenges” 2009 Event in Barcelona , Spain

Barcelona, March 25, 2009 - CheckLight Ltd, a Leading provider of innovative bioluminescence-based solutions for rapid water quality testing and online monitoring, concluded its participation in Addressing Water Challenges 2009 Event that took place in Barcelona, Spain.

Organized by "Invest in Med" <http://www.invest-in-med.eu> , the event hosted water related companies from Spain, Italy, Israel and Egypt, and offered a platform for B2B meetings between the companies.

CheckLight participated in the event as part of an Israeli delegation of 8 companies, organized by Israel NewTech <http://www.israelnewtech.gov.il/> .

"Participating in this important event is part of CheckLight's efforts to enter the Spanish market", said CheckLight's CEO, Eyal Mor, "We had generated some valuable leads during the event, which we believe will evolve into business relations in the near future".

About CheckLight

Founded in 2001 by Dr. Nirit Ulitzur, CheckLight Ltd. is a private company, based in Israel. Since its foundation CheckLight has engaged extensively in developing and marketing technologies for drinking water quality testing applications.

In early 2008 WhiteWater (www.w-water.com), a leading Israeli water technologies company, has become a strategic investor in CheckLight.

CheckLight's products are being successfully used by China's Environmental Protection Ministry, leading water labs in Europe and North America, the Israeli National Water company, and more.
