

CheckLight participates in China Water Expo 2008

Beijing, China, November, 2008 - CheckLight Ltd, a Leading provider of innovative bioluminescence-based solutions for rapid water quality testing and online monitoring, took part in China Water Expo 2008 in Beijing.

The 2008 event hosted a record number of visitors, with an impressive 50% increase over last year. CheckLight's booth was part of the Israeli National pavilion. Organized by Israel NewTech, the pavilion hosted 12 exhibitors, showcasing the country's advanced technologies and experiences related to water.

"We were not surprised by the great interest the Chinese attendants showed in our products" commented Mr. Moti Blau, CheckLight's VP Marketing, "CheckLight's products have gained very good reputation in China after being adapted by the Chinese Environmental Protection Ministry and successfully implemented in many locations around the country".

CheckLight is represented in China by Eurotech (F.E.) <http://www.euro-tech.com>, a distributor and manufacturer of high-quality technology instruments, with offices in Beijing, Shanghai, Guangzhou, Chongqing, Xian, Shenyang, Wuhan, FuZhou, Cheng Du, Qing Dao, & Urumqi.

About CheckLight

Founded in 2001 by Dr. Nirit Ulitzur, CheckLight Ltd. is a private company, based in Israel. Since its foundation CheckLight has engaged extensively in developing and marketing technologies for drinking water quality testing applications.

In early 2008 WhiteWater (www.w-water.com), a leading Israeli water technologies company, has become a strategic investor in CheckLight.

CheckLight's products are being successfully used by China's Environmental Protection Ministry, leading water labs in Europe and North America, the Israeli National Water company, and more.
